

## **Princeton A. C. 2024**

## **Electronic Gizmo List**

Whether we own or borrow, check electronics a day or two before an event.

Speaker (Alto TS410) & tripod stand

Extension cord & cable ramps

Microphone & XLR cable

iPad tablet x 2 – wifi connectivity, not 4G or 5G. Make sure fully charged.

One for music (offline) and one at sign-in.

Credit card reader – does chip cards, bluetooth connectivity

iPhone 5s – wifi connectivity, can use with credit card reader

Bullhorn – AA batteries

We have not been using things below lately – they are needed for manual timing.

- Display clock – rechargeable, charge for 10 hours, runs for 10 hours.

- Printing watches – AA batteries

- Simple stopwatches – who knows, replace when they die.

Replacement is cheaper by the dozen, so when a few die, we must get another lot.
